## Introduction

The Social Register has been compiled primarily for the benefit of subscribers. The attention of all those whose names are omitted is called to these facts: That at the outset of the undertaking the editor addressed circulars to a large list of citizens as a means of ascertaining the number of subscribers that might be relied upon; and also, in order to reach any one unintentionally overlooked, she had copies of said circulars printed in each daily paper, with the statement that she would be glad to receive suggestions which would enable her to put her publication into the hands of subscribers free from errors or omissions. She has made every effort to get a complete list of all those whose names should appear in this book, and any one noting an error or omission will confer a favor by sending notice of same to Mrs. Laurence O. Weakley, 610 N. Eighth street, so that it may be corrected in the next issue.

# The Latest in Carpet Cleaning

## COMPRESSED AIR

## Stuebner Bros. Have It

It is for every owner of fine Oriental rugs and carpets to make use of. Your rugs and carpets are not beaten or tumbled as in the old process, which made them flimsy and destroyed the sizing. The new way your rugs and carpets do not come in contact with others while being cleaned. They lay flat on a wire net floor, then the air is applied, which blows out every particle of dust and foreign substance and leaves the rug or carpet in as good a shape as new. This same process applied to dusting fine draperies, portieres, cushions and upholstered furniture. All this is done without any wear on the goods. A sure moth destroyer. Carpets that are badly soiled our renovating process makes them like new. Carpets refitted, sewed and laid. Feather beds, pillows and all kinds of mattresses renovated.
